Experience

Lead Software Developer

Rightpoint - a Genpact Company

(formerly Raizlabs of Boston, MA)

Chicago, IL

October 2017 to Present

- Led dev teams in building apps and websites for clients using a variety of languages, architectures and frameworks
- Collaborated with a team of expert designers, developers, and product managers
- Mentored web developers and organized knowledge sharing presentations
- Refined product requirements and worked with QA to validate work
- Wrote unit tests, integration tests
- Helped a client launch a complex multi-factor authentication product and provided integration support to third-party developers
- Created an API backend for a multi-lingual exercise tracking app to support a city-wide fitness challenge
- Supported a social-emotional learning robot with backend APIs and IoT test doubles

Interactive Developer

Augeo+Greer

St Paul, Minnesota

October 2008 to Present

- Grew and led a team of five developers
- Developed website frontends using HTML, CSS, SASS, and Javascript libraries
- Built website backends using Ruby on Rails, PHP frameworks (ExpressionEngine, Wordpress), and Sinatra
- Planned website architecture and user experience
- Created learning platforms, marketing sites, web applications, microsites, and HTML emails
- Tested for accessibility and browser compatibility

Production Intern & Contractor

Clockwork Active Media

Minneapolis, Minnesota

February 2008 to October 2008

- Produced client sites using HTML, Javascript, PHP
- Worked with Wordpress and Clockwork's Active Media Manager CMS
